# CRF Diskette Problem Report

The Scientific and Technical Information Center (STIC) experienced a problem when processing the following CRF diskette:

Application Serial Number: 09/423,093  
Filing Date: 11/1/99  
Classification: 536  
Date Processed by STIC: 3/29/2000  
Point-of-Contact/Telephone No.: Mark Spencer 703 - 308 - 4212

RECEIVED  
APR 12 2000  
TC 1600 MAIL ROOM

## Nature of Problem:

The diskette was:

- ☐ Damaged
- ☐ Unreadable
- ☐ Blank (no files present on diskette)
- ☐ Contained an empty file (filename present, but no bytes in file)
- ☐ A computer virus was detected on the diskette. The STIC will not process the diskette through the Data Capture System.

Name of virus: \_\_\_\_\_

The Sequence Listing was not saved in ASCII (DOS) text.

The diskette contained an error that disrupted normal processing:  
Four separate files, representing sequences 1-4,  
were submitted on disk (see attached), should,  
per Sequence Rules.

5. Section 1.824 is revised to read as follows:

1.824 Form and format for nucleotide and/or amino acid sequence submissions in computer readable form.

(a) The computer readable form required by 1.821(e) shall meet the following specifications:

(1) The computer readable form shall contain a single "Sequence Listing" as either a diskette, series of diskettes, or other permissible media outlined in paragraph (c) of this section.

(2) The "Sequence Listing" in paragraph (a) (1) of this section shall be submitted in American Standard Code for Information Interchange (ASCII) text. No other formats shall be allowed.

(3) The computer readable form may be created by any means, such as word processors, nucleotide/amino acid sequence editors or other custom computer programs; however, it shall conform to all specifications detailed in this section.

(4) File compression is acceptable when using diskette media, so long as the compressed file is in a self-extracting format that will decompress on one of the systems described in paragraph (b) of this section.

(5) Page numbering shall not appear within the computer readable form version of the "Sequence Listing" file.

(6) All computer readable forms shall have a label permanently affixed thereto on which has been hand-printed or typed: the name of the applicant, the title of the invention, the date on which the data were recorded on the computer readable form, the operating system used, a reference number, and an application serial number and filing date, if known.

(b) Computer readable form submissions must meet these format requirements:

(1) Computer: IBM PC/XT/AT, or compatibles, or Apple Macintosh;

(2) Operating System: MS-DOS, Unix or Macintosh;
